30' Petrel II

30' Deadrise Petrel

## Deadrise Boats

These simply built practical chine powerboats are available in a range of sizes (26', 27' & 30') and layouts. The ones shown here are a selection of the whole range.

They're inspired by the working boats on the Chesapeake Bay, with many modifications made to them as cruising boats.

They are all shown in greater detail and with more variations in our book, **SMALL SHIPS**. It also has photos and more detailed information about them and scores of our other power boat designs. For more information about **SMALL SHIPS**, see our price list, **DESIGNS & SERVICES**.
