32' Ladybug

32' Cruiser (#58)

32' Cruiser (#48)

## Strumpet & Ladybug

These two salty cruisers are favorites of ours. I've had a chance to be aboard both of them for periods of time, and they are great and capable cruisers. They, and a couple 32' variations, are shown on this page.

Study plans for them are shown in larger detail in our book, **SMALL SHIPS**. It also has more detailed information about them and scores of our other power boat designs. For more information about **SMALL SHIPS**, see our price list, **DESIGNS & SERVICES**.
